

College of Engineering and Applied Science

Request for Abeyance from Academic Suspension

Date: _____

By requesting an Abeyance from Academic Suspension, you are requesting to have one additional semester to raise your cumulative CU GPA above a 2.0. If you do not raise your GPA above the required 2.0 in that semester, you will be suspended from the College of Engineering and will not be able to take classes as a College of Engineering student until your cumulative GPA is above a 2.0, at which you will need to reapply to the College of Engineering.

INSTRUCTIONS: Complete this petition by attaching a typed explanation of your reason(s) for requesting a one semester abeyance from Academic Suspension (*petitions without a typed explanation will not be accepted*). Submit request, first, to your department chair and then to the Office of the Dean. Submitting a request does not guarantee an abeyance will be approved. Keep a copy of your petition for your records.

HELPFUL INFORMATION: Please remember that this will represent you to your Department Chair and the Dean. Try to make it complete, concise, clear, and indicative of your college-level communication skills. Feel free to attach any supporting documents that you feel support your request for a one semester abeyance.

ABEYANCE BEING REQUESTED FOR _____ SEMESTER

STUDENT INFORMATION:

Name: _____ Student #: _____
Address: _____ City: _____ State: _____ Zip: _____
Phone: _____ Email: _____
